(PURSUANT TO S. RES. 42, 86TH CONGRESS)

May 22, 1959

Professor Joshua Lederberg

Stanford, California

Dear Prof. Lederberg:

On Wednesday, May 20, the Senate, as you know, approved
Senator Hill's Bill, S. J. Res. 41, 63 to 17.

In mobilizing evidence for its passage, I found extremely
helpful your comments, as previously conveyed to me.

And so, in order to help make as fine and well-rounded record
for the Bill, I took the liberty of excerpting some of your message.

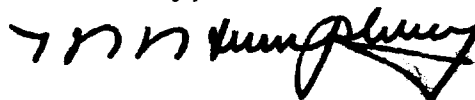

I hope that this proves satisfactory.

Enclosed are five copies of a reprint of my Congressional Record
statement.

Our Subcommittee is, of course, continuing its own independent
study of the many ramifications of the medical research problem throughout
the world.

With best wishes, I am

Sincerely,

Hubert H. Humphrey
Subcommittee Chairman
